

# RAMSAY PARK

WHITE SUFFOLK | SUFFOLK | BLACK COMPOSITE

## 25th Annual Ram Auction

Friday 20th September, 2019, starting at 1.00pm on the property "Ramsay Park"  
81 White Suffolks, 30 Suffolk/Black Composites, 20 White Suffolk Ewes by Helmsman Auction

*Peter & Julie Button, Minlaton*

**Phone: (08) 8853 2130 Mobile: 0419 842 246 [www.ramsaypark.com.au](http://www.ramsaypark.com.au)**

### Welcome to the 2019 Ramsay Park Studs Ram and Ewe Sale

The Ramsay Park White Suffolk Stud was established in 1997 and since then we have continually sourced the best genetics available to help improve the quality and consistency of our flock. In 2010 we started our Black Composite breeding program, combining the carcass qualities of a Hampshire Down with the clean points of a Suffolk. Our aim at Ramsay Park is to produce well-muscled, functional, paddock reared flock rams, with a balance of visual and genetic qualities.

We have been involved in showing stock at Royal and country shows since 1994 and see this as an important part of our stud's program, helping us to gauge our progress against the top studs in Australia for type and genetic gains.

To keep improving our genetic base, we are constantly sourcing top sires or use artificial insemination. The use of AI enables us to use the best genetics which would otherwise be unavailable to us and has helped in the rapid growth of our stud. Our flock is now back in Market Assurance program with an MN2 status. The flock is tested Brucellosis Free and Lambplan tested.

We will be offering a line of 20 2018 White Suffolk Ewes to be sold via Helmsman Auction, and any ewes not sold will be returned to the stud and used in our breeding program. All specially selected rams have been DNA tested Free of Hypotrychosis.

### Health Status

#### Show Rams

Backlined - Extinosad	August 2019
Drenched - Startect	August 2019

#### Flock Rams

Backlined/Drenched - Maverick	August 2019
-------------------------------	-------------

#### Vaccines:

Glanvac - 6-B12	August 2019
-----------------	-------------

#### OJD Status:

OJD Market Assurance Program Status MN2

**Accredited Brucellosis Free**

### INFORMATION ABOUT BLACK COMPOSITES

In 2009, we purchased the Suffolk sire Telpara 0800065 who contains a combination of West End Panache (UK) and The Brick (USA) genetics as well as having access to another Telpara sire with UK genetics.

These are being used to mate a cross section of our ewes to breed a Black Composite hybrid sire to have a mix of Hampshire carcase and clean points of the Suffolk.
